Independent Auditor's Report

October 10, 2016

To the Honorable Mayor and Members of the City Council
City of Clawson, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Clawson, Michigan, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Mayor and Members of the City Council
City of Clawson, Michigan

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Clawson, Michigan, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the defined benefit pension plan information, and the budgetary comparison information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Clawson, Michigan's basic financial statements as a whole. The combining nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining non-major fund financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling information directly to underlying accounting and other records used to prepare the financial statements or the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Respectfully,

PSLZ, LLP

Certified Public Accountants

Management's Discussion and Analysis

As management of the City of Clawson, we offer readers of the City of Clawson's financial statements this narrative overview and analysis of the financial activities of the City of Clawson for the fiscal year ended June 30, 2016.

Financial Highlights

- The assets of the City of Clawson's Governmental Activities were exceeded by its liabilities at the close of the most recent fiscal year by \$ 4,202,793-deficit in net position-while Business Type Activities had net position of \$9,810,715.
- As of the close of the current fiscal year, the City of Clawson's governmental funds reported combined ending fund balances of \$2,945,851, a decrease of \$1,966,212 in comparison with the prior year. Approximately 63 percent of this amount, \$1,845,803 is available for spending at the government's discretion (*unrestricted fund balance*).
- The City of Clawson's total contractual and bonded debt decreased by \$2,240,344 during the current fiscal year, due to debt repayments and refunding of bond issue.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City of Clawson's basic financial statements. The City of Clawson's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City of Clawson's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City of Clawson's assets and liabilities, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Clawson is improving or deteriorating.

The *statement of activities* presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused, leave time).

Both of the government-wide financial statements distinguish functions of the City of Clawson that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City of Clawson include general government, public safety, highways and streets, sanitation, and culture and recreation. The business-type activities of the City of Clawson include the water and sewer system and senior citizen housing.

The government-wide financial statements include not only the City of Clawson itself (known as the *primary government*), but also a legally separate downtown development authority for which the City of Clawson is financially accountable. Financial information for this *component unit* is reported separately from the financial information presented for the primary government itself.

The government-wide financial statements can be found on pages 10-12 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Clawson, like other state and local governments, used fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Clawson can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City of Clawson maintains 11 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund, 2014 Capital Projects Fund, and the G.O. bond debt service fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

A budgetary comparison statement has been provided for the general fund to demonstrate compliance with the annual appropriated budget.

Proprietary funds. The City of Clawson maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City of Clawson used enterprise funds to account for its water and sewer system and for its senior citizen housing. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City of Clawson's various functions. The City of Clawson uses an internal service fund to account for its fleet of vehicles. Because both of these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate

information for the water and sewer system and for senior citizen housing, the first of which is considered to be a major fund of the City of Clawson.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of Clawson's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the City of Clawson's progress in funding its obligation to provide pension benefits to its employees. This information can be found on pages 59-62 of this report.

The combining statements referred to earlier in connection with the non-major governmental funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 63-66 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Clawson, the combined net position was \$5,607,922 at the close of the most recent fiscal year.

By far the largest portion of the City of Clawson's net position (\$17,243,185) reflects its investment in capital assets (e.g., land, buildings, vehicles, office equipment, furniture, and other equipment); less any related debt used to acquire those assets that are still outstanding. The City of Clawson used these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Clawson's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay these debts must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Business-type activities. Business-type activities increased the City of Clawson's net position by \$591,868. Key elements of this increase are as follows:

- Clawson increased the water and sewer rate for the year and we had a slight increase in the overall fixed rate. The City completed nearly 100% of the SRF planned sewer rehabilitation program that has been repairing and replacing the worst sewers in the City. This program is run through the State Revolving Fund and is a low interest loan to complete the repairs to the sewer system. This loan must be paid back through revenues of the water and sewer system. The consumption rate for water went up slightly and the sewer rate also increased during the fiscal year. The fixed rate costs went up slightly due to the increase in the debt rate.
- The average monthly charge for a water and sewer residential customer were increased during the year.

Financial Analysis of the Government's Funds

As noted earlier, the City of Clawson used fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City of Clawson's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City of Clawson's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Clawson's governmental funds reported combined ending fund balances of \$2,945,851, a decrease of \$1,966,212 over the prior year, primarily due to spending down construction funds in the City's 2014 Capital Improvement Fund. The general fund is the chief operating fund of the City of Clawson. At the end of the current fiscal year, unrestricted fund balance of the general fund was \$1,845,803, while total fund balance is \$2,222,897. As a measure of the general fund's liquidity, it may be useful to compare both unrestricted fund balance and total fund balance to total fund expenditures. Unrestricted fund balance represents 26 percent of total general fund expenditures, while total fund balance represents 31 percent of that same amount.

The fund balance of the City of Clawson's general fund increased by \$350,232 during the current fiscal year. Key factors are as follows:

- Revenues increased at a higher rate than normal and expenditures were only up slightly from the previous year due to reduction in health benefit costs and a tight operating budget. The City Council has a fund balance policy that keeps 10% of annual expenditures in an emergency-only reserve.
- We received a distribution of state assistance for lost property tax revenues on the small business exemption from personal property taxes.

Proprietary funds. The City of Clawson's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Unrestricted net position of the Water and Sewer Fund at the end of the year amounted to \$ 1,511,077 and \$124,108 for the Senior Housing Fund. The total (decline)/growth in net position for both funds were \$587,979 and \$3,889 respectively. Other factors concerning the finances of these two funds have already been addressed in the discussion of the City of Clawson's business-type activities.

General Fund Budgetary Highlights

Other than an increase in funding for capital outlay, there were no significant differences between the original and final amended budget.

Capital Asset and Debt Administration

Capital assets. The City of Clawson's investment in capital assets for its governmental and business type activities as of June 30, 2016, amounts to \$40,534,465 in tangible assets, and \$7,492,681 in intangible assets. (net of accumulated depreciation and amortization). This investment in capital assets includes land, buildings and system improvements, vehicles, equipment, park facilities, intangible assets and streets.

Major capital asset events during the current fiscal year included the following:

- Building Upgrades \$93,405
- Park Improvements \$2,598,444

Long-term debt. At the end of the current fiscal year, the City of Clawson had total bonded and contractual debt outstanding of \$30,234,720. All of the City of Clawson's debt represents general obligation debt backed by the full faith and credit of the City of Clawson. Additional information on the City of Clawson's long-term debt can be found in note III. E. on pages 36-38 of this report.

Economic Factors and Next Year's Budgets and Rates

With a slight surplus in our General Fund from the fiscal year which just closed, we expect that we will be at a break-even level once again this coming year. We see on the horizon some significant increases in our defined benefit pension payments. Since we are closed to new hires and have been for many years, we must now contribute higher amounts to reduce our unfunded accrued liability. We have to take the good with the bad. Our legacy costs are eliminated for many current and future employees, but we must pay the piper to adequately fund our pension plan for those that are receiving the defined benefit pension payments. We will plan for those increased payments utilizing annual revenue increases for taxes. This will not leave us much room for wage and benefit increases unless we get savings in other areas.

We are seeing nice savings in our health care costs. Our partially self-funded plans are saving us significantly over the fully insured plans of years past. Those savings have helped us fund some wage increases over the past three years, but it also comes at a cost to the employees in the way of increased out-of-pocket costs. Our retiree health care plans are also no longer available to new hires after 2004. That will also help us in future legacy costs. We are currently paying retiree health care costs using the pay-as-we-go-method. Our OPEB liability is high, but will continue to drop in future years as less people are eligible for coverage and the number of those covered will decrease. As always, we will continue to be steadfast in our pursuit of grants wherever they are available.

Our combined operating millage rates will allow us to continue to provide the services that our residents have grown accustomed to. In 2016-2017, we will levy 2.9697 mills for rubbish and 14.8485 total mills for general operating purposes. For the first time in many years we had to roll back our millage rates. The "Headlee" Amendment rolls back our millage rate to act as an inflationary barrier, while our assessments are limited by state law to inflationary gains. As home values continue to rise, we will likely see small increases in property tax revenues. These increases should help us maintain our fund balance at, or near, its current level.

Although our total debt burden is currently at a high level, we have been diligent in fixing the problems in Clawson that are long overdue for repair. The light at the end of the tunnel is that we will start to see some of this debt paid off beginning in the year 2020. The tremendous support of this community continues to allow us to fix the problems that need fixing.

Within a slightly improving financial forecast, we have been able to make small increases in wages, helped significantly by savings in our health care plans. Our employees are taking on additional costs for health care with high deductible plans and partial self-insurance. This has helped us

tremendously in our annual budget while keeping the costs manageable to sustain us for the future. We will continue to adjust our health care plans to provide quality health care, while keeping the costs sustainable into the future for both our active and our eligible retired employees. We continue to recover from a difficult financial period of decline that allowed us to tighten our belt. With pending increases in our defined benefit pension payments over the next seven years, we must continue to maintain most of the cost cuts that we made during the lean times we experienced over the previous seven years. A big part of that means continuing to maintain a 36-hour work week, which provided significant cost savings over the past four years.

During the 2016-2017 fiscal year we completed the pedestrian island project that we were awarded a grant through MDOT that will allow us to make visiting Downtown Clawson a safer experience. These mid-block crossing islands and signalized traffic controls were installed on 14 Mile Road to assist those walking or biking across the widest and busiest street in Clawson. This grant contributed 65% of the project cost and amounted to \$267,400. Although pedestrians and vehicles are still learning how this new technology is supposed to work, the hope is that people will now be able to get around to Clawson's many interesting places safer.

Our hope in the 2016-2017 fiscal year and those beyond is to continue our infrastructure improvements using both our annual receipts and some of our reserves. We expect to take delivery of our new fire rescue vehicle that was purchased in the last fiscal year through Act 99 financing. We will be purchasing a SUV for our Police Department and completing the renovation of our community room kitchen at City Hall. We are also wrapping up a Park Improvement project which repaired or replaced all of our athletic fields at both City Park and Grant Park. That will likely be the last large debt issued for at least a few years.

I would like to thank everyone in Clawson for the continued support of what we are accomplishing. This is a wonderful and supportive community that truly fits our motto, "The little City with a BIG heart."

Requests for Information

This financial report is designed to provide a general overview of the City of Clawson's finances for all those with an interest in the government's finances. Questions should be addressed to the Office of the City Manager/Finance Director, City of Clawson, 425 N. Main Street, Clawson, Michigan 48017-1555.

CITY OF CLAWSON
Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balance
of Governmental Funds to the Statement of Activities
For the Year Ended June 30, 2016

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$	(1,966,212)
---	----	-------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation expense in the current period:

Capital Outlay Expenditures	\$	2,919,644	
Depreciation Expense		<u>(1,266,914)</u>	
			1,652,730

The net increase in other post employment benefit obligations (OPEB) and IBNR does not require current resources and are not included in governmental funds.		(570,001)
--	--	-----------

The issuance of long-term debt (e.g. bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items:

Principal Payments on Long Term Bonds	\$	1,322,053	
Principal Payments on Long Term Bonds-D.D.A.		65,000	
Transfer to Escrow Agent-Refunding of Long Term Debt:			
Principal Amount	\$	5,145,000	
Bond Premiums		<u>347,661</u>	
Total		5,492,661	
Proceeds of Long Term Debt		(4,985,000)	
Amortization of Bond Premium		52,306	
Deferred Inflows of Resources-Bond Premiums		(411,661)	
Decrease (Increase) in Compensated Absences		<u>(51,063)</u>	
			1,484,296

Changes in Net Pension Liability Do Not Require Current Resources:		
(Increase) Decrease in Net Pension Liability-MERS Defined Benefit Plan		(150,824)
(Increase) Decrease in Net Pension Liability-Fire Department Defined Benefit Plan		(372,271)

Internal service funds are used by management to charge the costs of fleet management and management information systems to individual funds. The net revenue(loss) of certain activities of internal service funds is reported with governmental activities.		<u>36,789</u>
---	--	---------------

Change in net position in governmental activities	\$	<u><u>114,507</u></u>
---	----	-----------------------

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The City of Clawson, Michigan, was established in 1940 and covers an area of approximately 2.4 square miles. The City operates under an elected Mayor and City Council, with a full-time City Manager appointed by this body to carry out the policies that it establishes. Services are provided to approximately 13,000 residents in the areas of police and fire protection, building code enforcement, refuse removal, parks and recreation, road construction, street lighting, maintenance, senior housing and water and sewer.

As required by generally accepted accounting principles, these financial statements present the City of Clawson and its component units, entities for which the government is considered to be financially accountable. The discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely Presented Component Unit

Downtown Development Authority

The City of Clawson Downtown Development Authority (DDA) was established to promote economic growth and revitalization of the City's business district. The DDA Board is appointed by the City Council and the annual operating budget and any modifications require the approval of the City Council. The DDA has a June 30 fiscal year end.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e. the statement of net position and the statement of changes in net position) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

B. Government-Wide and Fund Financial Statements – Continued

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise fees, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Governmental Funds

The City reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Unlimited Tax General Obligation Debt Service Fund – used to account for taxes levied to pay Street Debt.

2014 Capital Improvement and Refunding - Capital Project Fund-used to account for the proceeds from the 2014 G.O. Bonds.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation – Continued

Governmental Funds – Continued

In addition, the City reports on the following fund types:

The Special Revenue Funds account for revenue sources that are legally restricted to expenditures for specific purposes (not including expendable trusts or major capital projects).

The Debt Service Funds account for the resources that are legally restricted to expenditures for principal and interest payments on long-term debt of governmental funds.

Capital Project Funds are used to account for the proceeds of long-term borrowings used to fund various projects.

Proprietary Funds

Proprietary funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. Proprietary funds include the following fund types:

Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business or where the City Council has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability. The City's enterprise funds include the Water and Sewer Fund, which is reported as a major fund, and the Senior Citizen Housing Fund, which is reported as a nonmajor fund.

Internal Service Funds account for operations that provide services to other departments or agencies of the City on a cost reimbursement basis. As these services predominantly benefit governmental rather than business-type functions, they have been included within the *governmental activities* in the government-wide financial statements.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation – Continued

Fiduciary Funds

Fiduciary Funds account for assets held by the government in a trustee capacity or as an agent on behalf of others. Fiduciary Funds include the following fund types:

The Pension Trust Fund accounts for the activities of the Fire Department Retirement System, which accumulates resources for pension, benefit payments to qualified fire department employees.

The V.E.B.A. Health Care Trust Fund was established to accumulate resources for certain post employment benefit payments to qualified employees.

The Agency Fund is used to account for assets that the government holds for others in an agency capacity. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes. When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as needed.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

D. Assets, Liabilities, and Net Position or Equity

1. Deposits and Investments

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. State statutes authorize the City to invest in obligations of the U.S. Treasury, commercial paper of certain investment grades, and deposits of Michigan commercial banks. Investments for the City, as well as for its component units, are recorded at fair value.

2. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e. non-current portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "due to/from other funds"

Advances between funds, as reported in the fund financial statements, are considered 'non spendable' allocation of fund balance in the applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources. All trade and property tax receivables are shown net of allowance for uncollectible accounts, which are recorded at \$-0- at June 30, 2016.

3. Inventory

Inventories are valued at cost using the first-in/first out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when consumed rather than when purchased.

4. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

D. Assets, Liabilities, and Net Position or Equity – Continued

4. Capital Assets – Continued

Interest incurred during the construction phase of capital assets of business-type activities is included as part of capitalized value of the assets constructed. Property, plant and equipment of the primary government, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and Improvements	31
Infrastructure	30-50
Equipment	5-20
Vehicles	5-7

5. Compensated Absences

In accordance with contracts negotiated with the various employee groups of the City, individual employees have vested rights upon termination of employment to receive payment for unused vacation and sick leave under formulas and conditions specified in the contracts. All sick and vacation pay is accrued when incurred in the government-wide, proprietary, and fiduciary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured. The long-term portion of compensated absences related to the governmental funds is a liability recorded in the statement of net position. This liability is composed of employees who retire who are paid for fifty to fifty-five percent of unused sick days upon termination of employment and any unused vacation paid upon termination of employment.

6. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

D. Assets, Liabilities, and Net Position or Equity – Continued

6. Long-Term Obligations – Continued

Long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the statement of net position. Long-term liabilities expected to be financed from proprietary funds are reported as liabilities in those funds.

7. Fund Balance

In accordance with Generally Accepted Accounting Principles, the City's fund balance in governmental funds is classified as follows:

- Non-Spendable – Amounts classified as “non-spendable” include balances in prepaid insurance and retention (\$243,322), which are deemed “non-spendable,” as they cannot be liquidated to spend in the following year, and the long term advance to the DDA (\$60,000).
- Restricted – Equity in Special Revenue Funds (spendable), Capital Projects and Debt Service Funds are restricted to those activities by State law or by resolutions of City Council.
- Committed Fund Balances – Amounts that have been formally set aside by City Council for use for a specific purpose. Commitments are made by resolution of the City Council.
- Assigned Fund balances are developed by City Administration and are generally reviewed and approved by City Council. Expenditures are first applied to “assigned” then to “unassigned” balances.

The City's fund balance policy states that the general fund must have at least 10% of prior year revenues in ‘unassigned’ fund balance. The City does not have a Budget Stabilization Fund.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

D. Assets, Liabilities, and Net Position or Equity – Continued

7. Fund Balance – Continued

The City's General and Special Revenue funds have the following allocations:

	2016
<u>General Fund</u>	
Non-Spendable:	
Prepaid Insurance & L.T. Advance	\$ <u>303,322</u>
Restricted:	
Athletic Fields	60,000

 <u>Capital Project Funds</u>	
Restricted to Capital Projects	
Total	<u>\$ <u>77,078</u></u>

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The City is legally subject to the budgetary control requirements of the State of Michigan P.A. 621 of 1978 (Uniform Budgeting Act). The following is a summary of the requirements of this act:

- a. Budgets must be adopted for the General and Special Revenue Funds.
- b. Budgets must be balanced.
- c. Budgets must be amended as necessary.
- d. Public hearings must be held prior to adoption.
- e. Expenditures cannot exceed budget appropriations.
- f. Expenditures must be authorized by a budget appropriation prior to being incurred.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – Continued

A. Budgetary Information – Continued

The City follows these procedures in establishing the budgetary data reflected in these financial statements:

1. The City Charter requires two regular council meetings per month. By the second meeting in April, a proposed operating budget must be submitted to the City Council for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and means of financing them for the upcoming year.
2. A public hearing and adoption of the budget is required by the second meeting in May.
3. On or before June 15, the tax rate must be set and the budget is legally enacted through passage of a budget resolution (general appropriation act).
4. Formal budgetary integration is employed as a management control device for the General and Special Revenue Funds. Budgets for these funds are prepared and adopted on a basis consistent with generally accepted accounting principles (GAAP). The General Fund and Special Revenue Fund budgets are adopted at the activity level.
5. Budget appropriations lapse at year end.
6. The City Council may authorize supplemental appropriations (budget amendments) during the year. In 2016 several budget amendments were made and are reflected in the financial statements.

B. Compliance with P.A. 621 of 1978

1. Excess of Expenditures over Appropriations in Budgetary Funds

The budgets for the General and Special Revenue Funds are adopted at the activity level; there were no expenditures in excess of budget appropriations.

2. Deficit Fund Balance-There are no City funds in a deficit condition.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY – Continued

C. Public Act 245 of 1999 Compliance

In accordance with the State Construction Code Act, Public Act 245 of 1999, the City must account for cumulative revenues over or under expenditures generated by the City's building department from January 1, 2000 and forward.

The cumulative amounts as of June 30, 2016 are as follows:

Cumulative Balance at June 30, 2015	\$ (2,017,485)
Fees Collected in Fiscal Year 2016	197,625
Expenditures in Fiscal Year 2016	<u>(284,934)</u>
Revenues Over (Under) Expenditures	<u>\$ (2,104,794)</u>

III. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

Under State law, the City is permitted to make deposits and invest in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The City is allowed to invest in bonds, securities, and other direct obligations of the United States or any agency or instrumentality of the United States; repurchase agreements; bankers' acceptances of United States banks; commercial paper rated within the two highest classifications, which mature not more than 270 days after the date of purchase; obligations of the State of Michigan or its political subdivisions, which are rated as investment grade; and mutual funds composed of investment vehicles that are legal for direct investment by local units of government in Michigan.

The Pension Trust Fund and V.E.B.A. Health Care Trust Fund are also authorized by Michigan Public Act 55 of 1982 to invest in certain reverse repurchase agreements, stocks, diversified investment companies, annuity investment contracts, real estate leased to public entities, mortgages, real estate, debt or equity of certain small businesses, certain state and local government obligations and certain other specified investment vehicles.

Custodial Credit Risk. In the event of a bank failure, the City's deposits may not be recovered. The City's investment policy requires the Finance Director to consider custodial credit risk by utilizing F.D.I.C. insurance coverage and collateralization of deposits. As of June 30, 2016, the City's book balance of its deposits was \$4,048,032; the total book balance was \$4,049,461, due to \$1,429 in cash on hand. The bank balance was \$4,116,420, which was exposed to custodial credit risk as follows:

	<u>Bank</u>
	<u>Balance</u>
Insured by F.D.I.C.	\$ 905,560
Collateralized in the City's Name	2,987,796
Uninsured and Uncollateralized	<u>223,064</u>
Total	<u>\$ 4,116,420</u>

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

III. DETAILED NOTES ON ALL FUNDS – Continued

A. Deposits and Investments – Continued

A reconciliation of cash for the primary government follows:

Statement of Net Position:

Cash and Cash Equivalents	\$ 3,348,086
Restricted Cash	680,544
Fiduciary Funds:	
V.E.B.A. Trust & Pension Trust	18,016
Agency Funds	<u>2,815</u>
Total	<u>\$ 4,049,461</u>

	<u>Carrying Amount</u>	<u>Bank Balance</u>	<u>Collateralized in DDA's Name</u>
Downtown Development Authority	<u>\$85,243</u>	<u>\$85,243</u>	<u>\$85,243</u>

Interest Rate Risk. The City's investment policy does not restrict investment maturities, other than commercial paper which can only be purchased with a 270-day maturity. At year end, the average maturities of deposits are as follows:

<u>Deposits and Investments</u>	<u>Fair Value</u>	<u>Weighted Average Maturity</u>
Primary Government:		
Cash and Cash Equivalents:		
Certificates of Deposit	\$ 505,414	2.93 Years
Savings and Checking Accounts	3,389,483	Demand
Money Market	<u>221,523</u>	Demand
	<u>\$ 4,116,420</u>	
Investments:		
Government Agency Notes	<u>\$ 769,530</u>	3.96 years
Trust Funds:		
Mutual Fund – Bonds	\$ 1,589,826	Not Available
Mutual Funds – Equity	<u>2,052,735</u>	N/A
	<u>\$ 3,642,561</u>	
Component Unit:		
Checking	<u>\$ 85,243</u>	Demand

CITY OF CLAWSON

2028-2032	6,666,406	876,872	1,001,398	107,454
2033-2034	760,000	55,519	394,836	9,931
	<u>\$ 23,151,231</u>	<u>\$ 7,343,554</u>	<u>\$ 7,083,489</u>	<u>\$ 1,047,741</u>

Interest Subsidies

The City issued two obligations that are intended to qualify for Federal interest rate subsidies. The Capital Improvement Bonds, Series 2010, are anticipated to qualify for the 45% interest rate subsidies under IRC 1400-U2 (Recovery Zone Economic Development Bonds), while the 2010 Unlimited General Obligation Improvement bonds, are anticipated to qualify for the 35% interest rate subsidies under IRC 54AA (Build America Bonds). The 2010 Capital Improvement Bonds were advanced refunded and are considered retired.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

III. DETAILED NOTES ON ALL FUNDS – Continued

E. Long-Term Debt – Continued

Refunding Bonds

The City issued \$4,985,000 of unlimited tax general obligation refunding bonds with an interest rate of 3.49% and annual maturities from May 2018 through May 2026. The net proceeds of \$4,985,000 were used to advance refund \$5,185,000 (along with bond premiums and transfers from debt service fund) of 2007 Unlimited Tax General Obligation Bonds with interest rates ranging from 3.7-3.9% and maturing through 2027. The refunding bond proceeds were placed in an irrevocable trust for the purpose of generating resources to pay the future debt service payments of the bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the City's liabilities. The transaction resulted in an economic gain (difference between the present value of the debt service on the old and new bonds) of \$275,192.

The outstanding balances of refunded issues as of June 30, 2016, are as follows:

2010 Unlimited- General Obligation (refunded in prior years)	<u>\$5,020,000</u>
2007 Unlimited- General Obligation (refunded in current year -note (\$460,000 due 5-1-2017 were not refunded)	<u>\$5,605,000</u>

F. Long-Term Component Unit Advances

At June 30, 2016, the General Fund has an advance to the Downtown Development Authority in the amount of \$60,000. The advance is being repaid over the next 5 years.

G. Property Taxes

Property taxes are assessed as of each December 31. The City tax levy is billed on July 1 of the following year, and payable in eight installments through February. Taxes are considered delinquent on March 1, at which time the applicable property is subject to lien and penalty and interest is assessed.

The maximum authorized operating levy for the City is 15 mills. The City's tax levy for the 2015 tax roll is as follows (tax rate per \$1,000 of assessed valuation):

General Operating	10.7602
Refuse	2.9000
Library	1.3240
Voted Debt	7.2000
Voted Operating	<u>4.2398</u>
Total	<u>26.4240</u> mills

IV. OTHER INFORMATION

A. Pension Plans

1. Municipal Employees Retirement System Defined Benefit Plan

a. Plan Description

The City participates in an agent multiple-employer defined benefit pension plan administered by the Municipal Employees Retirement System of Michigan (MERS) that covers all full-time employees of the City. MERS was established as a statewide public employee pension plan by the Michigan Legislature under PA 135 of 1945 and is administered by a nine-member Retirement Board. MERS issues a publicly available financial report, which includes the financial statements and required supplemental information of this defined benefit plan. This report can be obtained at www.mersofmichigan.com or in writing to MERS at 1134 Municipal Way, Lansing, Michigan 48917.

Benefits Provided – The Plan provides certain retirement, disability, and death benefits to plan members and beneficiaries. PA 427 of 1984, as amended established and amends the benefit provisions of the participants in MERS. There are three divisions, all closed to new hires; the benefit provisions are summarized on the following page.

b. Employees Covered by Benefit Terms

At the December 31, 2015 measurement date, the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently Receiving benefits	61
Inactive plan members entitled to but not yet receiving benefits	3
Active plan members	<u>13</u>
Total employees covered by MERS	<u><u>77</u></u>

c. Contributions

Article 9, Section 24 of the State of Michigan constitution requires that financial benefits arising on account of employee service rendered in each year be funded during that year. Accordingly, MERS retains an independent actuary to determine the annual contribution. The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS retirement board. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The employer may establish contribution rates to be paid by its covered employees.

Since the plan is closed to new members the city is required to make contributions in "flat amounts". During the year the City made required contributions of \$1,286,298. Employees contributed required contributions of \$19,060.

d. Net Pension Liability

The net pension liability reported at June 30, 2016 was determined using a measure of the total pension liability and the pension net position as of December 31, 2015. The December 31, 2015 total pension liability was determined by an actuarial valuation performed as of that date.

A. Pension Plans – Continued

1. Municipal Employees Retirement System Defined Benefit Plan – continued

e. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – continued

Amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending <u>June 30</u>	<u>Amount</u>
2017	260,735
2018	260,735
2019	260,735
2020	293,360
2021	48,699
2022	48,699
2023	48,699

f. Actuarial Assumptions

The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.75%
Investment rate of return	7.75%

Mortality rates were based on the RP=2014 Healthy Annuitant Mortality Tables of a 50 percent male and 50 percent female blend with rates multiplied by 105%. For disabled retirees, the 50% Male and 50% Female blend of the RP- 2014 Disabled Retiree Mortality Tables.

The actuarial assumptions used in the December 31, 2015 valuation were based on the results of an actuarial experience study in 2008. The MERS retirement board is currently conducting an actuarial experience study covering the period from January 1, 2009 through December 31, 2013.

Notes to Financial Statements
June 30, 2016

IV. OTHER INFORMATION – continued

A. Pension Plans – Continued

1. Municipal Employees Retirement System Defined Benefit Plan – Continued

g. Discount Rate

The discount rate used to measure the total pension liability was 8.00 percent. The projection of cash flows used to determine the discount rate assumes that employee contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate.

h. Projected Cash Flows

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a model in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return as of December 31, 2015, the measurement date, for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Global equity	58%	5.0%
Global fixed income	20%	2.2%
Real assests	12%	4.2%
Diversifying strategies	10%	6.6%

i. Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 8.00 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (7.00 percent) or one percentage point higher (9.00 percent) than the current rate:

	1% Decrease (7.00%)	Current Discount Rate (8.00%)	1% Increase (9.00%)
Net pension liability of the City	\$ 17,261,703	\$ 14,870,527	\$ 12,826,963

j. Pension Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued financial report found at www.mersofmichigan.com. The plan's fiduciary net position has been determined on the same basis used by the plan. The plan uses the economic resources measurement focus and the full accrual basis of accounting. Investments are stated at fair value. Contribution revenue is recorded as contributions are due pursuant to legal requirements. Benefit payments and refunds of employee contributions are recognized as expense when due and payable in accordance with the benefit terms.

2. Clawson Fire Department Defined Benefit Plan

a. Summary of Significant Accounting Policies

Method used to value investments. Investments are reported at fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

b. Plan Description.

Plan administration. The Clawson Fire Department Pension Board administers the Clawson Fire Department Defined Benefit Plan. – a single-employer defined benefit pension plan that provides pensions for all paid on call fire fighters. Management of the Clawson Fire Department Defined Benefit Plan is vested in the Clawson Fire Department Pension Board which consists of 5 members.

Plan Membership. At July 1, 2016, pension plan membership consisted of the following:

Inactive plan members or beneficiaries currently receiving benefits	15
Inactive plan members entitled to but not yet receiving benefits	5
Active plan members	<u>25</u>
	<u>45</u>

c. Contributions

The authority to amend contribution requirements rests with the Clawson Fire Department Pension Board. The board establishes rates based on an actuarially determined rate recommended by an independent actuary. The actuarially determined rate is the estimate amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of plan members. For the year ended June 30, 2016 the City contributed \$15,000.

2. Clawson Fire Department Defined Benefit Plan – Continued

d. Investment Policy

The pension plans' policy in regard to the allocation of invested assets is established and may amended by the Clawson Fire Department Pension Board by a majority vote of its members. It is the policy of the Clawson Fire Department Pension Board to pursue an investment strategy that reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. The pension plan's investment policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from dramatically shifting asset class allocations over short time spans. The following was the Board's adopted asset allocation policy as of June 30, 2016.

<u>Asset Class</u>	<u>Target Allocation</u>
Domestic equity	50%
International equity	15%
Fixed income	35%
Real estate	-0-
Cash	-0-
Total	<u>100%</u>

e. Projected Cash Flows

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return on pension plan investments was determined using a model in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of is 7.0%.

g. Pension Expense and Deferred Outflows of Resources Related to Pensions

For the year ended June 30, 2016, the City recognized pension expense of \$387,271. At June 30, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Source	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 306,024	\$ -
Differences in Assumptions	51,922	
Differences in Experience	-	232,784
Total	\$ 357,946	\$ 232,784
Net	125,162	

Amounts reported as deferred outflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	Amount
2017	65,156
2018	65,156
2019	65,156
2020	29,382
2021	(20,294)
thereafter	(79,394)

h. Actuarial Assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2016, using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	N/A
Salary increases	N/A
Investment rate of return	7.0 percent, net
Mortality rates	1994 Group Annuity Blended Table.

i. Discount Rate-rate used to measure the total pension liability 6.95%.

j. Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the City, calculated using the discount rate of 6.95 percent, as well as what the City's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (5.95 percent) or one percentage point higher (7.95 percent) than the current rate:

	1% Decrease (5.95%)	Current Discount Rate (6.95%)	1% Increase (7.95%)
Net pension liability (Surplus) of the City	\$ 655,175	\$ 192,805	\$ (188,280)

IV. OTHER INFORMATION – Continued

A. Pension Plans – Continued

2. Clawson Fire Department Defined Benefit Plan – Continued

k. Plan benefits

The plan presently provides retirement as well as death benefits. Pension benefits vest after five years of total service, for employees hired before July 1, 2009, and ten years for all others. Employees who retire at age 55 are entitled to a monthly pension payable for life in an amount equal to \$45.00 multiplied by the years of service. Death benefits are based on the present value of accrued benefits per participant and are provided regardless of years of service. The City makes annual contributions to the Plan equal to the amount determined by an actuary. Employee contributions are not allowed.

3. City of Clawson Employees Defined Contribution Plan

a. Plan Description

In April 1999, the City established a defined contribution plan for employees hired after July 1, 1999. The plan is administered by the Michigan Municipal Employees' Retirement System (MMERS) who sponsors the prototype plan. Amendments are developed by MMERS and submitted to the City Council for approval. A defined contribution money purchase pension plan provides pension benefits in return for services rendered, provides an individual account for each participant, and specifies how contributions to the individual's account are to be determined instead of specifying the amount of benefits the individual is to receive. Under a defined contribution pension plan, the benefits a participant will receive depend solely on the amount contributed to the participant's account, the returns earned on investments of those contributions, and forfeitures of other participants' benefits that may be allocated to such participant's account. Contributions made by the City fully vest after 7 years.

b. Contributions Required and Contributions Made

The City is required to contribute an amount equal to 10% of the employee's gross earnings. Employee contributions on a pretax basis are permitted but not required. The City will match up to 3% of an employee's contribution. During the year, the City's required and actual contributions amounted to \$249,003; the employee contributions were \$66,888.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

IV. OTHER INFORMATION – Continued

B. Post Retirement Health Care Benefits

Plan Description – The City provides retiree healthcare benefits to eligible employees upon retirement in accordance with labor contracts. Currently, fifty-four retired employees receive this benefit. At the fund level, the expense is recognized by the City as the payments to the employees are made. During the year, this amounted to \$391,810.

Funding Policy – The City has no obligation to make contributions in advance of when the insurance premiums are due for payment (in other words, this may be financed on a “pay-as-you-go” basis). The City has made no contributions in advance.

Funding Progress – For the year ended June 30, 2016, the City has estimated the cost of providing retiree healthcare benefits through an actuarial study that complies with the requirements of GASB 45. The study computes an annual required contribution that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The computed contribution and actual funding are summarized as follows:

Annual required contribution (recommended)	\$ 970,986
Interest on the prior year's net OPEB obligation	-
Less: adjustment to the annual required contribution	-
Annual OPEB cost	<u>970,986</u>
Amounts contributed:	
Payments of current premiums	391,810
Advance funding	-
Increase in net OPEB obligation	<u>579,176</u>
OPEB obligation – Beginning of year	2,730,333
OPEB obligation – End of year	<u>\$ 3,309,509</u>

The OPEB obligation is recorded as follows:

Governmental activities	3,309,509
Business-type activities	-
Total	<u>\$ 3,309,509</u>

<u>Fiscal Year</u> <u>Ended</u>	<u>Actuarial</u> <u>Valuation</u> <u>Date</u>	<u>Annual</u> <u>Required</u> <u>Contribution</u>	<u>Annual</u> <u>OPEB Costs</u>	<u>Percentage</u> <u>of ARC</u> <u>Contributed</u>	<u>Net</u> <u>Obligation</u>
6/30/2014	6/30/2013	\$1,035,006	\$1,035,006	42.0%	\$(2,054,709)
6/30/2015	6/30/2013	\$1,886,756	\$1,886,756	37.8%	\$(2,730,333)
6/30/2016	6/30/2016	\$ 970,986	\$ 970,986	40.0%	\$(3,309,509)

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

IV. OTHER INFORMATION – Continued

B. Post Retirement Health Care Benefits – Continued

Valuation as of:	<u>June 30, 2016</u>
Actuarial Value of Assets	\$ -
Actuarial Accrued Liability	14,093,576
Unfunded AAL	14,096,576
Funded Ratio	0.0%

Actuarial Methods and Assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2016 calculation, the entry age actuarial cost method was used. The actuarial assumptions included a 4.0 percent investment rate of return. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2016 was 30 years.

C. Risk Management

The City of Clawson is a member of the Michigan Municipal Risk Management Authority for its general liability coverage and a member of the Michigan Municipal Workers Compensation Fund for its workers compensation coverage. The City pays annual premiums to the pools. The pools are self-sustaining through member premiums, and each carries reinsurance through commercial companies for claims in excess of the pool loss reserve fund.

CITY OF CLAWSON
Notes to Financial Statements
June 30, 2016

IV. OTHER INFORMATION – Continued

D. Risk Management – Continued

In the event that a single loss should exceed the amount of protection afforded by the pool loss reserve fund, reinsurance, or other insurance carried by the pools, or in the event that a series of losses should deplete or exhaust the loss reserve fund and reinsurance, the payment of valid losses shall be the obligation of the individual member or members of the respective pool against whom the claim was made.

No such event has occurred with the City of Clawson and the pools to which it belongs in any of the past three fiscal years.

E. Jointly Governed Organizations

1. Resource Recovery Authority

The City is a member of the Southeastern Oakland County Resource Recovery Authority (S.O.C.R.R.A.). The City appoints one member of the Authority's governing board, who then approves the annual budget. The board is made up of representatives from twelve member municipalities. These include Berkley, Beverly Hills, Birmingham, Clawson, Ferndale, Hazel Park, Huntington Woods, Lathrup Village, Oak Park, Pleasant Ridge, Royal Oak, and Troy. The City has a 4.54% participation in the Authority.

2. Water Authority

The City is a member of the Southeastern Oakland County Water Authority (S.O.C.W.A.). The City appoints one member to the Authority's governing board, who then approves the annual budget. The board is made up of representatives from eleven member municipalities. These include Berkley, Beverly Hills, Bingham Farms, Birmingham, Clawson, Huntington Woods, Lathrup Village, Pleasant Ridge, Royal Oak, Southfield and Southfield Township. The City has a 4.05% participation in the Authority. The debt of the Authority is being financed by water user fees.

IV. OTHER INFORMATION – Continued

F. Upcoming Accounting Pronouncement

The Governmental Accounting Standards Board (GASB) issued two new pronouncements in June 2015, GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans*, and GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, which will enhance the note disclosures and schedules of required supplementary information for Other Postemployment Benefit Plans (OPEB). GASB Statement No. 74 will provide information about measures of net OPEB liabilities and an analysis of why those liabilities change from year to year. GASB Statement No. 75 establishes standards for governmental employer recognition, measurement, and presentation of information about OPEB plans. GASB Statement No. 74 will be effective for fiscal years beginning after June 15, 2016 and GASB Statement No. 75 will be effective for fiscal years beginning after June 15, 2017.

G. Self Insured Health Insurance

Effective January 1, 2014, the City terminated its traditional health and dental insurance coverage for substantially all of its employees and retirees, and implemented a self insured plan administered by Blue Cross and Blue Shield of Michigan. The plan has two levels of “stop loss” re-insurance coverage to help mitigate potential claims.

- \$40,000 maximum per employee per plan year
- \$95,820 per month

The following is a summary of the City's liability for claims incurred but not reported.

Incurred claims expenses	557,664
Less payments	<u>495,664</u>
Claims incurred but not reported claims	<u>\$ 62,000</u>

Actuarially determined contribution	\$ 1,288,242	\$ 1,213,709	\$ 1,133,436	\$ 1,109,388	\$ 1,018,356	\$ 1,013,448	\$ 815,148	\$ 795,988	\$ 668,823	\$ 563,434
Contributions in relation to the actuarially determined contribution	1,288,242	1,213,709	1,133,436	1,109,388	1,018,356	1,013,448	815,148	795,988	668,823	563,434
Contribution Deficiency	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Covered Employee Payroll	\$ 903,385	\$ 894,050	\$ 964,678	\$ 1,087,486	\$ 1,392,751	\$ 1,595,797	\$ 1,541,458	\$ 1,750,947	\$ 1,811,247	\$ 1,806,265
Contributions as a Percentage of Covered Employee Payroll	142.6%	135.8%	117.5%	102.0%	73.1%	63.5%	52.9%	45.5%	36.9%	31.2%

Actuarial valuation information relative to the determination of contributions:

Valuation Date Actuarially determined contribution rates are calculated as of December 31 each year, which is 18 months prior to the beginning of the fiscal year in which the contributions are required.

Methods and assumptions used to determine contribution rates:

Actuarial Cost Method Entry age normal cost

Amortization Method Level percent

Remaining Amortization Period City of Clawson has elected option "B" - which allows "closed" plans to amortize the unfunded on an accelerated method - the expected amortization which commences in fiscal year 7/1/13, is 20 years

Asset Valuation Method 5-year smoothed market

Salary Increases 3.75%

Investment Rate of Return 7.75%

Cost of living adjustments None

Mortality Table 2014 Group Annuity
